

transition_regime_correction
_factor

```
graph LR; A[transition_regime_correction_factor] --> B[mean_free_path__m]
```

A diagram showing a relationship between two variables. On the left is a gray rectangular box with a black border containing the text "transition_regime_correction_factor". A blue arrow points from the right side of this box to a white rectangular box with a black border on the right, which contains the text "mean_free_path__m".

mean_free_path__m
